Summary

Full-stack engineer with 4 years of experience building web platforms end-to-end, from requirements to deployment. Front-end is my area of depth, complemented by hands-on experience in system design, back-end development, and databases across B2B SaaS products and custom software projects.

Education

Technical University of Moldova Sep 2022 — Jul 2026
Bachelor of Science, English-taught Honours Programme in Software Engineering Chişinău, Moldova
– Rector's List (Top 1%) | First-Class Honours, GPA 9.78/10 | Thesis: 10/10
– Relevant Coursework: Web Programming, Distributed Systems, Databases, Requirements Engineering

Work Experience

Freelance Full-stack Engineer Oct 2025 — Present
Self-employed Chişinău, Moldova
– Architected and delivered a geospatial web platform used by the National Archaeological Agency of Moldova to manage a register of 11,000+ archaeological sites
– Leading front-end development of an ERP/LMS platform for impact Academies

Front-end Developer May 2024 — Oct 2025
Lixium Chişinău, Moldova
– Owned front-end of 2 production B2B SaaS platforms for logistics fleet management and truck repair operations which serve multi-shop operators
– Shaped front-end architecture decisions and drove refactoring to improve maintainability across production codebases
– Designed and built a dental tourism platform in Next.js (patient-facing and doctor-facing)

Front-end Developer May 2022 — May 2023
EBS Integrator Chişinău, Moldova
– Developed and shipped features across 4 production applications, including large-scale CMS and CRM systems, focusing on improving user experience and accessibility
– Audited and improved Lighthouse performance and SEO scores across marketing pages
– Built reusable Storybook components for the internal React UI library shared across 2 production applications

Freelance Full-stack Engineer (Part-time) Jun 2021 — Present
BR Media Group Chişinău, Moldova
– Served as the primary technical owner of 7+ web properties (portfolio and landing pages, e-commerce, catalogs), including technology selection, hosting, and third-party integrations
– Integrated Shopify, local payment gateways, shipping providers, and ticketing systems into 2 e-commerce platforms

Organizations

Sigmoid R&D Mar 2023 — Present
– Leading development of a custom learning platform for the organization as front-end lead and DevOps engineer
– Mentored new members through a 5-month ML/data science internship
– Contributed to the events coordinated by the organization, including a university hackathon
